## ENGINEERED FUTURE

## WELCOME TO MARUTI SALES CORPORATION

We are a leading name in utility material handling equipments since 1987 especially in hydraulic system, waste disposal and all type of small and large automobile bodybuilding for local transportation and agriculture equipment. With a great reputation as a private organization for local transportation and agriculture

## COMPANY PROFILE

Being superior on technical and strong after sales service provided to the product. we keep on receiving import inquiries from various countries for the customized requirements.

Equipped with skilled manpower, our expert staff and skilled workers are headed by an experienced dedicated managerial team.

We have always believed in bringing the products with state of art technology and engineering precision to our valued customers. Hence, we continuously strive to design unique and novel products. our innovativeness has given us cutting edge over our competitors thereby enabling Maruti to emerge as the undisputed leader in our chosen field.

## VISION

To be the pioneer and the top Indian brand with unmatched quality and technology leadership offering total environmental solution for specific customer needs under one roof.

## MISSION

To be perceived as a unique, high efficient, fast response, innovative customer oriented company which is known around the globe for its unmatched level of excellence.

## MANAGEMENT TEAM

Maruti Sales Corporation group is managed by highly qualified and experienced persons, who keep a good watch over the daily activities of the company. The company has many skilled, qualified and experienced persons whose fervent hard work has brought the company a tall reputation. Together the management and the work force stand as a zealous team.

## AUTO REMOVER

AutoRemover is an unique innovation to facilitate Door to Door collection of garbage and its proper disposal.

### ADVANTAGES

- The number of trips can be increased,
- It is totally hygienic and thus, much safer
- It can easily move in narrow lanes,

### SALIENT FEATURES

- This equipment can dump the garbage on the Ground, as well as direct in to a Container and also in the Refuse Collector
- The capacity of the Auto Remover is 1.0 Cubic Meters (Volumetric Cap. Hopper).

### USEFUL:

Small Town Ships, City Council & Big Factories.

## ROAD SWEEPER MACHINE

## TRUCK MOUNTED ROAD SWEEPER

## TRACTOR TRAILED

Can be attached to any 35 HP Tractor.  
Sweeping span 2200 mm. Can sweep about 3 to 4 km/hour. Can sweep sand, dirt, stone, plastic paper etc.

## CONTAINER CARRIER

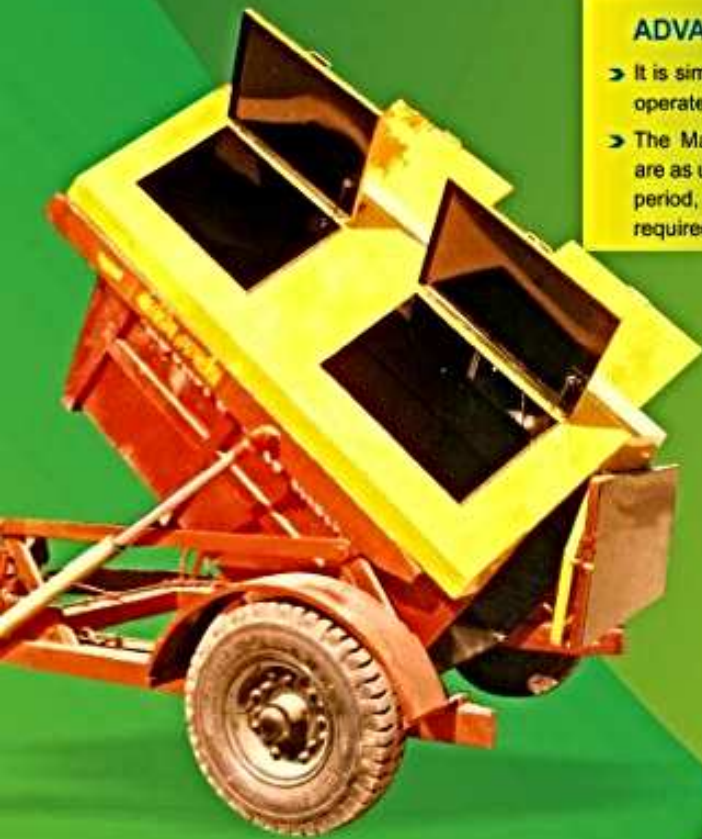

Container Carrier System is developed on Two Wheeled Trailer Chassis which can be towed or operated by a 35 HP Tractor.

### ADVANTAGES

- It is simple, easy and convenient to operate.
- The Main Advantages of this machine are as under : totally hygienic, no waiting period, more trips and less manpower required.

### SALIENT FEATURES

- One System can easily handle up to 10-15 Containers of 2.5 / 4.0 m depending upon the lead distance from garbage collection point to dumping Site.
- After transporting it to the dumping site, the container is tipped hydraulically to discharge its load.

## TATA ACE MOUNTED DUMPER PLACER

## CONTAINER

Dispomate is a Lifting System developed on heavy duty two wheeled Trailer Chassis which can be towed or operated by a 35/55 HP Tractor depending upon the Container capacity

### SALIENT FEATURES

- A container having capacity up to 3.0/4.5 cubic meter can be easily handled with the System.
- One System can easily handle up to 10-15 Containers depending upon the lead distance from garbage collection point to the dumping Site.

### ADVANTAGES

- The Main Advantages of this machine are totally hygienic, no waiting period, more trips and less manpower required,
- The existing LCV Dumper Placer container can be suitably lifted by this Dispomate
- Economical and available at an optimum Price.

## CONTAINER LIFTER

## JETTING MACHINE

Three Wheeler Mounted Muljet is a multi-purpose High Pressure Sewer Jetting Machine Suitable for effective and efficient cleaning of choked underground drainage and sewer lines.

### SALIENT FEATURES

- It can effectively clean sewer lines having a diameter up to 3"-7".
- The pressure exerted by the pump is 200 bar @ 13 lpm
- It can also be easily used in narrow lanes

### ADVANTAGES

- It can be used for varied purposes such as cleaning of public urinals, toilet blocks, footpaths, colour marks on walls, cleaning of vehicle, pesticide spraying application etc.
- Further, it can be used to extinguish small flames/fire.
- Low water consumption.

## JETSUCK

Trailer Mounted Muljet is a High Pressure Sewer Jetting Machine suitable for effective and efficient cleaning of choked underground drainage and sewer Lines.

### SALIENT FEATURES

- It is capable of cleaning choked drainage/sewer lines ranging from 4"-36" Diameter.
- The operation is carried out by a specially designed nozzle.
- It is A available on 16 Tonner Chassis, 8/6 Tonner Chassis Vehicle & also available on Trailer Mounted.

### ADVANTAGES

- It is simple, easy and convenient to operate.
- It is economical and available at an optimum Price
- At the most one or two persons are required to operate the system and thus, it is convenient to operate.

## TRAILER MOUNTED JETTING MACHINE

## GULLY EMPTIER

### SALIENT FEATURES

- > It has a simple Suction Operation and is capable of creating very high degree of air pressure which breaks the silt sedimentation that gets accumulated at the bottom of the cesspool and manhole chambers.
- > Gully Emptier Tank Capacity 3500 Ltrs., 4000 Ltrs., 8000 Ltrs., as per the specific requirement.

Gully Emptier is an advanced technology for emptying cesspit, cesspool and manhole chambers as well as for cleaning underground drainage, sewer lines etc.

### ADVANTAGES

- > Gully Emptier Machines are meant to clean without anyone having to enter the poisonous and gaseous sewer, manholes, etc at his life's risk.
- > Gully Emptier is a highly technical and advanced but user friendly equipment, which comes with all the essential accessories.

## TOWER LADDER

## TOWER LADDER

## NALAH CLEANER

Nalah Cleaner is very useful equipment and is used to clean Nalah / Ditch on the road side.

### SALIENT FEATURES

- > It is developed on a Tractor-Trailer chassis
- > The Back-hoe can be extended and the person working on it can rotate in 90 degree direction.

### ADVANTAGES

- > It can collect silt, mud, debris etc. from a depth of 5 feet and can accumulate the same in the trailer.
- > Nalah Cleaner can be develop on any 1 Tonneer Tata-207, Tempo Trax, Mahindra Pickup with or without collection tray.  
N.B.: Changing the Grab Bucket, Equipment can be used in lifting the Garbage heaps.

## DISLTING MACHINE

Dislting Machine is developed on a three wheeler and on TATA ACE and is used for effective and efficient cleaning of silt from Manholes and Wet wells / Sump house.

### SALIENT FEATURES

- > The capacity of the D'siltman is 0.35 Cubic Meters (Volumetric Cap. Hopper).
- > The bucket can lift 20 to 50 kg silt at one time
- > It can also reach to the depth of 30' to 50'.
- > Totally hydraulically operated.

### ADVANTAGES

- > No human touch, 100% hygienic, No life risk.
- > No need to enter into manholes.
- > The shorter turning radius helps in moving easily in narrow lanes / by lanes.
- > It helps in fast operation.
- > It is economical and available at an optimum Price.
